WORK EXPERIENCE

PC and Mobile Phone Technician

Station Games - 2017-2026

Customer service in the sales of various technology devices, including gaming equipment and home appliances.

PC repair and assembly, covering both hardware and software, including diagnostics and cleaning. Strong knowledge of PC building and repair.

- Networking
- Software: Operating system installation
- Troubleshooting in Windows environments
- Printer setup and connection

Cell phone repair:

- Hardware (modules, charging ports, motherboards, buttons)
- Software (firmware repair and flashing)

I expanded my knowledge in computer repair, which I developed throughout my adolescence.
I also applied my mobile phone repair skills in practice, grew my client base, and currently carry out this work independently.

Insurance Sales Representative

ABC Seguros -Nov 2014 - Nov 2016

Insurance sales representative in a call center, specializing in home, auto, and personal insurance, working with commissions and performance-based targets.

- Development of soft skills, including communication, teamwork, and public speaking.
- Development of sales skills.
